SUMMARY

MS Business Analytics candidate at UCI and B. Tech in Computer Engineering from KJSCE, combining statistical modeling with software engineering foundations. Built end-to-end analytics and deployable demos—SQL analyses, Power BI dashboards, Flask/Streamlit apps, and machine learning models—that delivered measurable time savings and clearer operational insights.

SKILLS

Tools: Python, R, SQL, Excel, SPSS, Power BI, Tableau, Git.

Data: ETL, data cleaning, aggregation, joins, A/B testing, segmentation.

DB/Cloud: PostgreSQL, MySQL, MongoDB, AWS EC2.

ML/Libs: scikit-learn, Pandas, PyTorch, OpenCV, machine learning models.

EXPERIENCE

Avanath Capital Management LLC

Irvine, CA, USA

Student Analyst

01/2026-06/2026

- Standardized multi-sheet Excel occupancy into a 120k-row dataset using **Python/R**, cutting preprocessing **10h→2h/week**.
- Trained **Ridge and XGBoost** models with 3-fold CV; reduced forecast error **18%**.
- Built **Power BI dashboards** for 5 managers and automated weekly reporting, cutting manual reporting time to **83%**.

Paramatrix Technologies Limited

Navi Mumbai, India

Data Science Intern

06/2024 – 08/2024

- Built Python sentiment classifier** (F1 **0.87**) to auto-tag ~5k monthly emails, reducing manual triage 40%.
- Benchmarked APIs** and recommended integrations that doubled geocoding speed and cut API costs 25%.
- Segmented 30k customers** (K-means/hierarchical) and delivered segmentation dashboards and automation scripts.

PressX

Mumbai, India

Business Development Intern

04/2023 – 05/2023

- Competitive analysis across 5 competitors; synthesized recommendations that informed pricing/service changes.

PROJECTS UNDERTAKEN

Retail Shelf Monitoring System - UCI

04/2026 – 06/2026

- End-to-end detection + analytics on SKU110K subset (~11k images); produced product counts, shelf occupancy, zone metrics and rule-based restock recommendations.
- Test results: **Precision 88.8%, Recall 82.1%, mAP50 88.2%**.

Web Application Intrusion Prevention System Using Machine Learning - KJSCE

07/2024 - 04/2025

- Multi-model classifier for XSS/LFI/SSTI integrated with a **Flask** API and temporary IP-blocking to automate responses.
- Improved detection recall **22%** and cut incident handling time **30–40%**.

Kisan Seva – Smart Crop Recommendation System – KJSCE

01/2024 - 04/2024

- Flask app recommending crops from soil/climate features; evaluated 6 models and selected lowest **RMSE** via cross-validation.
- Deployed as a lightweight REST endpoint with input validation and reproducible notebook.

EDUCATION & CERTIFICATIONS

University of California Irvine (UCI), Irvine, CA

08/2026

Master of Science, Business Analytics

- Relevant Coursework: Statistics for Data Science, Machine Learning, Management Science, Predictive Analytics, Big Data, Deep Learning, Customer and Social Analytics, Marketing Analytics.

K J Somaiya College of Engineering (KJSCE), Mumbai, India

05/2025

Bachelor of Technology, Computer Engineering

- Relevant Coursework: Data Structures and Algorithms, Object Oriented Programming, Database Management Systems, Computer Networks, Cloud Computing, Natural Language Processing, Soft Computing, Operating Systems.

ADDITIONAL INFORMATION

Languages: Hindi (Native), Gujarati (Native)

Strengths: Time management, Communication, Collaboration, Adaptability, Analytical Thinking
